

SCI Assessed

U-Roof Limited

U-Roof System

Light Gauge Roof System

The SCI has assessed the design and performance of a panelised light gauge roofing system particularly suitable for residential and light commercial applications. The system comprises lightweight panels and joist sections and includes a room in the roof solution as standard.

The SCI Assessed applies to the U-Roof system designed and detailed as described in the U-Roof System Manual (April 2008 version). The system comprises panels constructed from a range of lipped and plain cold-formed C-sections of S390 GD+Z275 galvanised steel to BS EN 10326.

A handwritten signature in black ink, appearing to be 'G. Couchman', is located in the bottom right area of the page.
