

U-Roof Warranty Statement for New Customers:

The U-Roof system is designed in accordance with the following criteria:

- Building control regulations
- Under the advice of the U-Roof appointed Light Gauge Steel Frame certified engineer at Avie consulting (or one of their appointed associates)
- In accordance with the patented system

In conjunction with our professional indemnity insurance, attached, this covers any potential structural defects up to £5million, and acts in replacement of a specific warranty for work completed. As such no individual warranties are issued by U-Roof.
